PAINT is NOT ACCEPTED at

Maricopa County Waste Disposal & Recycling Centers

Maricopa County Transfer Stations do not accept paint, unless it is a household garbage item. Paint becomes household garbage when it is **COMPLETELY DRIED OUT** and lid removed from paint can. You may also purchase paint hardener at a local hardware store, harden the paint in your can and dispose of it as household garbage.

Is your paint in good condition, are your cans near full? You can search earth911.org or call [1800-Clean Up](tel:1800-CleanUp) to find a location near you for paint recycling or disposal of your paint cans, spray paint, paint removers, and other Household Hazardous Waste, etc. Below are some companies or cities within Maricopa County that accepts paint either for free or for a fee, some recycle it and some dispose of it:

Phillips Services Corporation
